

INSTRUCTIONS: Birthday Card

NOTE: For best results, print this project on card stock.

STEP 1

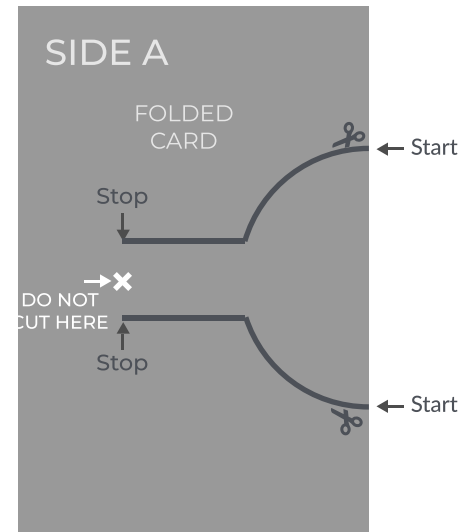

Cut along the edges of side A.
Fold the card in half along the dotted line.

STEP 2

With card folded, carefully cut around the circle starting at the top and stopping when you reach the end of the top line. Next, start from the bottom of the circle and cut along the shape until you reach the end of the bottom line.

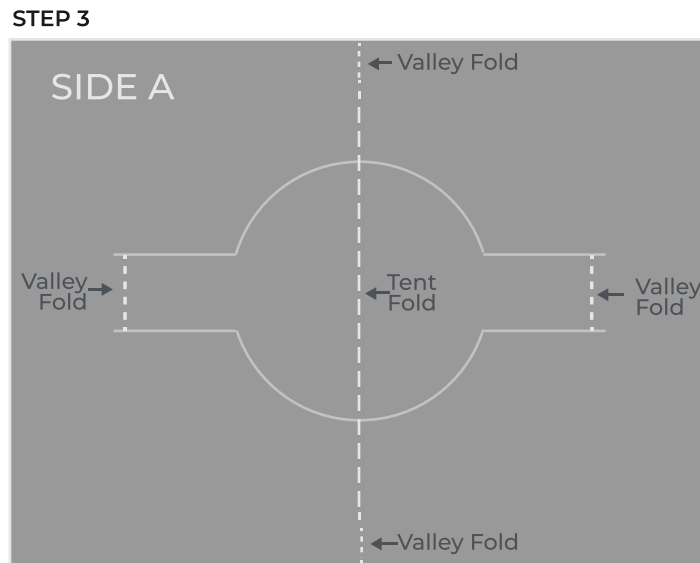

STEP 2

FINAL RESULT

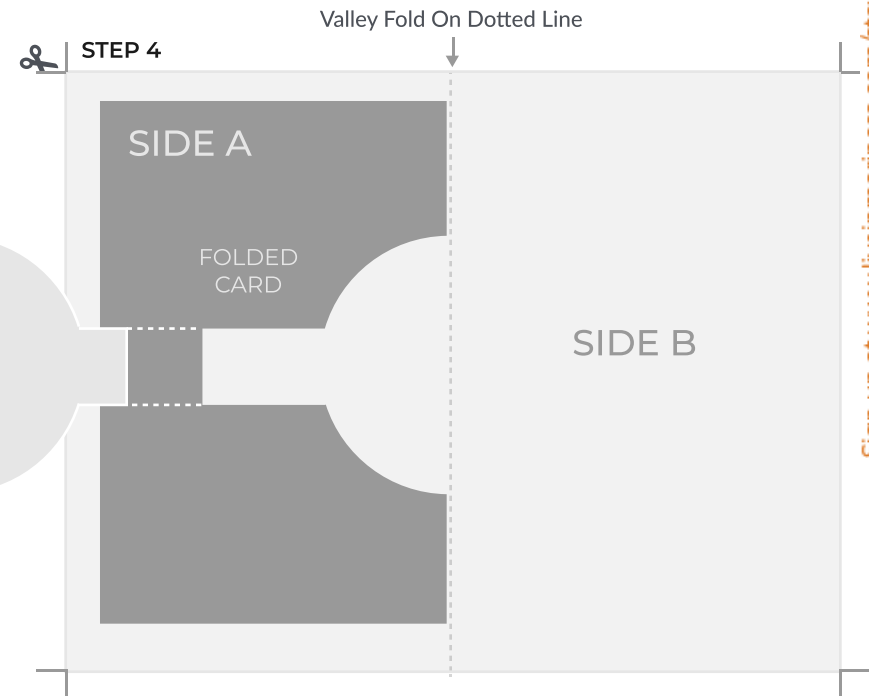

STEP 3

Once cuts have been made, make valley folds along the top and bottom center lines of the background and the side tabs, while keeping the rocket center fold a tent fold.

STEP 4

Cut along the edges of side B. Valley fold the card in half along the dotted line. Place (folded) Side A so the folded edge is lined up with the center crease of Side B. Glue the back of Side A to the inside of Side B so they are centered with each other and can bend as one card. (See final result!)
