

# INSTRUCTIONS: Halloween Apothecary Labels

## YOU WILL NEED:

- Any container — we used mason jars, jelly jars and even a coffee can.
- Ribbon or string
- Paper
- Scissors
- Hole puncher
- Glue or tape

## STEP 1

Print and cut out the labels.

## STEP 2

Hole punch rectangular labels (circular labels do not need to be hole punched if you are putting them on lids).

## STEP 3

Fill your containers with all kinds of Halloween goodies like gummy eyeballs, sugar skulls, tootsie rolls, candy bracelets and rings.

## STEP 4

Tie rectangular labels to the jar lids with ribbon or string. Glue the circular labels to the top of the lids.

That's it! Monstrously simple!
